

**International Scientific Instrument Technology Workshop
Instrument Technology Research Center
National Applied Research Laboratories**

Instructions: This report must be completed by a registered medical practitioner after clinical and laboratory examination including HIV, VDRL, TPHA and TB tests. The training institution (ISIT Workshop, ITRC) will require the candidate to undergo a further HIV test after he/she arrives in the Republic of China (Taiwan). The candidate who is confirmed afterwards with positive result of HIV test in Taiwan will be rejected and sent back home immediately even when the training is in progress.
